

# STERILE NEUTRINOS AT THE CROSSROADS

A Workshop  
presented by  
**The Center  
for Neutrino  
Physics**  
at Virginia Tech

September 26-28, 2011

The Inn at Virginia Tech and  
Skelton Conference Center  
Blacksburg, Virginia

This workshop will bring together experts in the various sub-disciplines, such as nuclear theory (reactor fluxes, nucleosynthesis) and experiment (reactor experiments, flux measurements, LSND/Karmen, MiniBooNE), cosmology, neutrino phenomenology (global fits, alternative models), in order to critically review the evidence for and against sterile neutrinos and to discuss the need or otherwise to pursue dedicated new experiments or new strategies.
